HARRISON SPRINGS,

This favorite resort is located on Harrison Lake, in the mountains of the coast range, 5 miles north of Agassiz station C.P.R. Among the many summer resorts and Sanitariums of the Pacific coast, none possesses greater attractions or offers better opportunities for the recuperation of health than Harrison Hot Springs. The virtue of these waters has long been known, but accommodation was primitive until some three years ago. The Brown Brothers erected a first class hotel on the margin of the Lake, a beautiful body of water about forty-five miles long, and averaging ten in width. The land at the south end of the Lake, and just east of the hotel, facing the snow-capped Mount Douglas, has been laid out in lots, most of them have been sold to residents of the cities on the coast, who are building summer residences on them. Good fishing can be had in the Lake, which is the favorite spawning ground for salmon; trout abound in the numerous clear mountain streams. The hunter will find excellent sport, as the mountains abound with deer, mountain sheep, goats, rabbits, grouse, etc. The scenery is beautiful, the mountain air fresh and invigorating, and everything necessary to render a visit one of great enjoyment.
